# Agenda

1 Why we built the new mobile app

2 App vision

3 Key features and benefits

4 Typical use cases

5 Roadmap of the AG5 mobile skills app

6 Live Q&A

# AG5's main mission

AG5 helps companies with a frontline workforce **visualize and close skill gaps** by mapping the skill and training requirements per workstation.

This ensures the right person with the right skills is assigned at the right time, achieving **optimal efficiency** and **100% compliance**.

AG5 Dashboard: Employees, Qualifications, Organization

### Roles and requirements

- Jobroles (45 / 47 - 65)

Alexander Moore	Safety Champ: [checkmark]

# AG5 mobile apps

## The evolution of the AG5 mobile experience

- Unified two apps into one cohesive solution for seamless skills management
- Improved user experience for enhanced productivity and streamlined tasks

Skills portfolio

### AG5 Skills app

Launch date July 2024

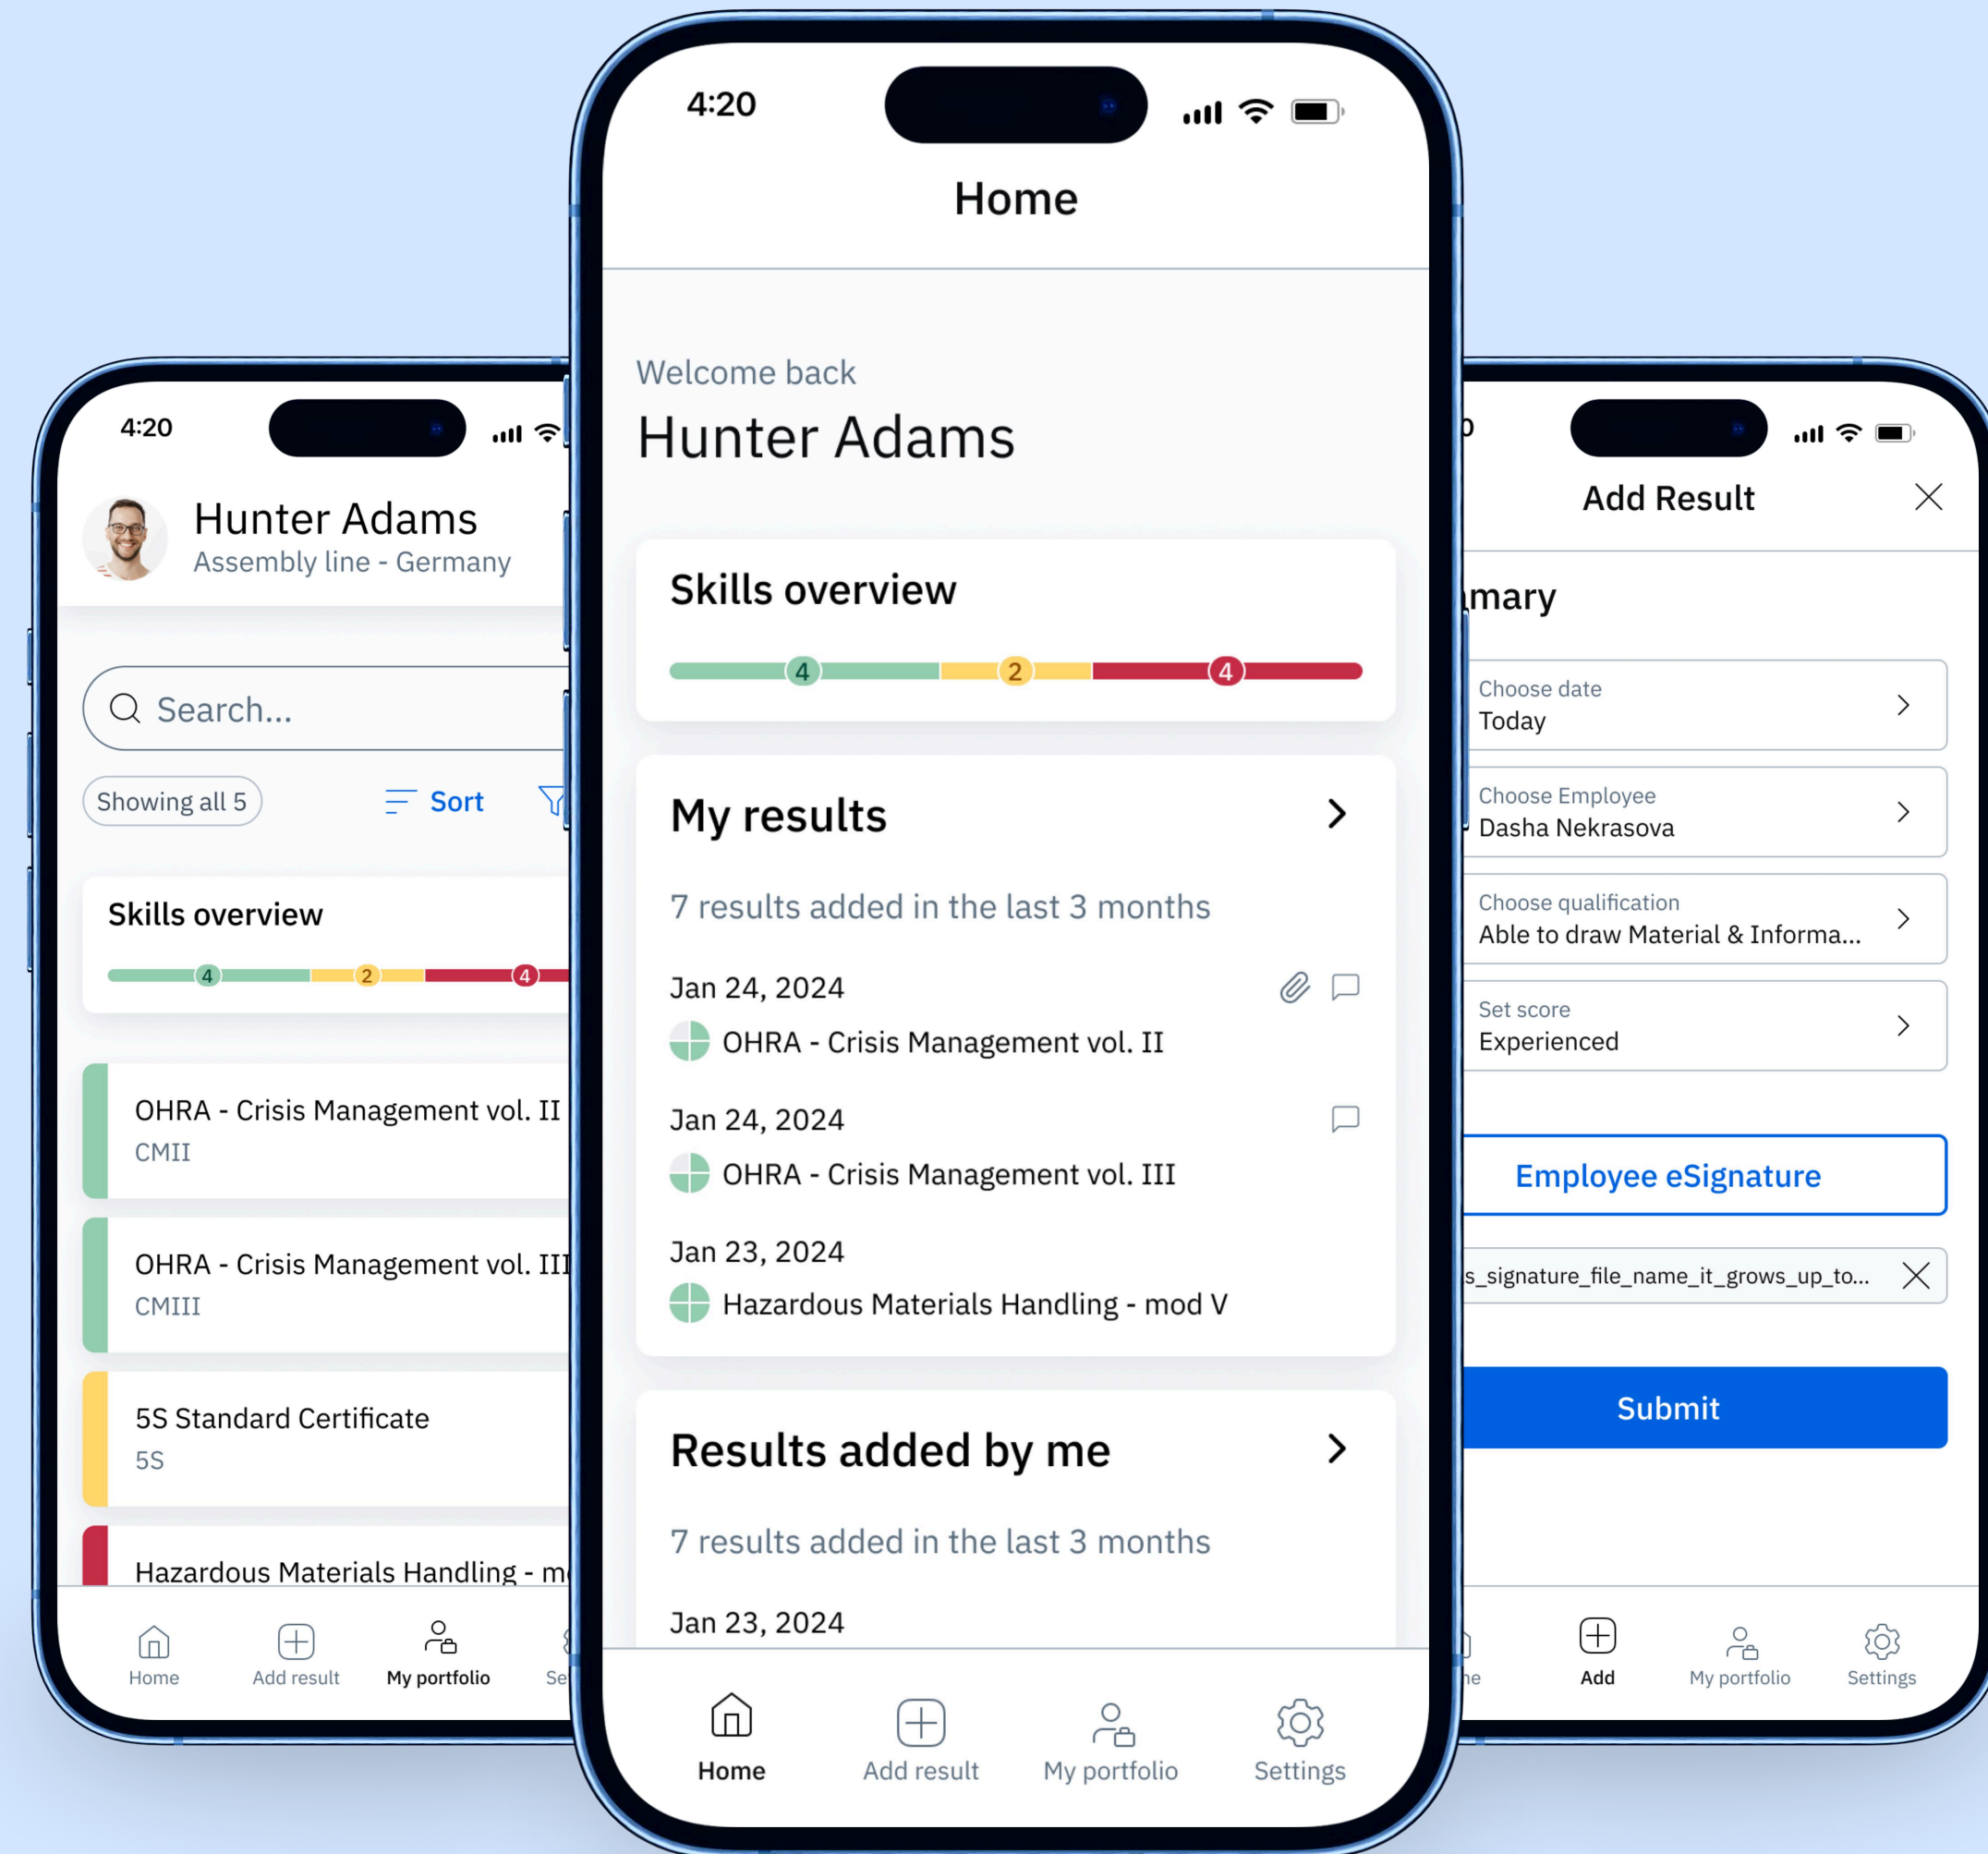

Skills assessment

# AG5 Skills app

## Our vision

Solve skill management issues for organizations with frontline workers by:

- Managing critical skills compliance
- Centralizing skills data for immediate access
- Bridging skill gaps
- Ensuring role readiness

# Andrew Soderberg

Andrew will highlight the app’s key features and provide real-world examples of how the app can improve employee engagement and simplify skills tracking for both managers and frontline staff.

 Customer Success Manager at AG5.

# Key features & benefits

Designed to simplify skills management

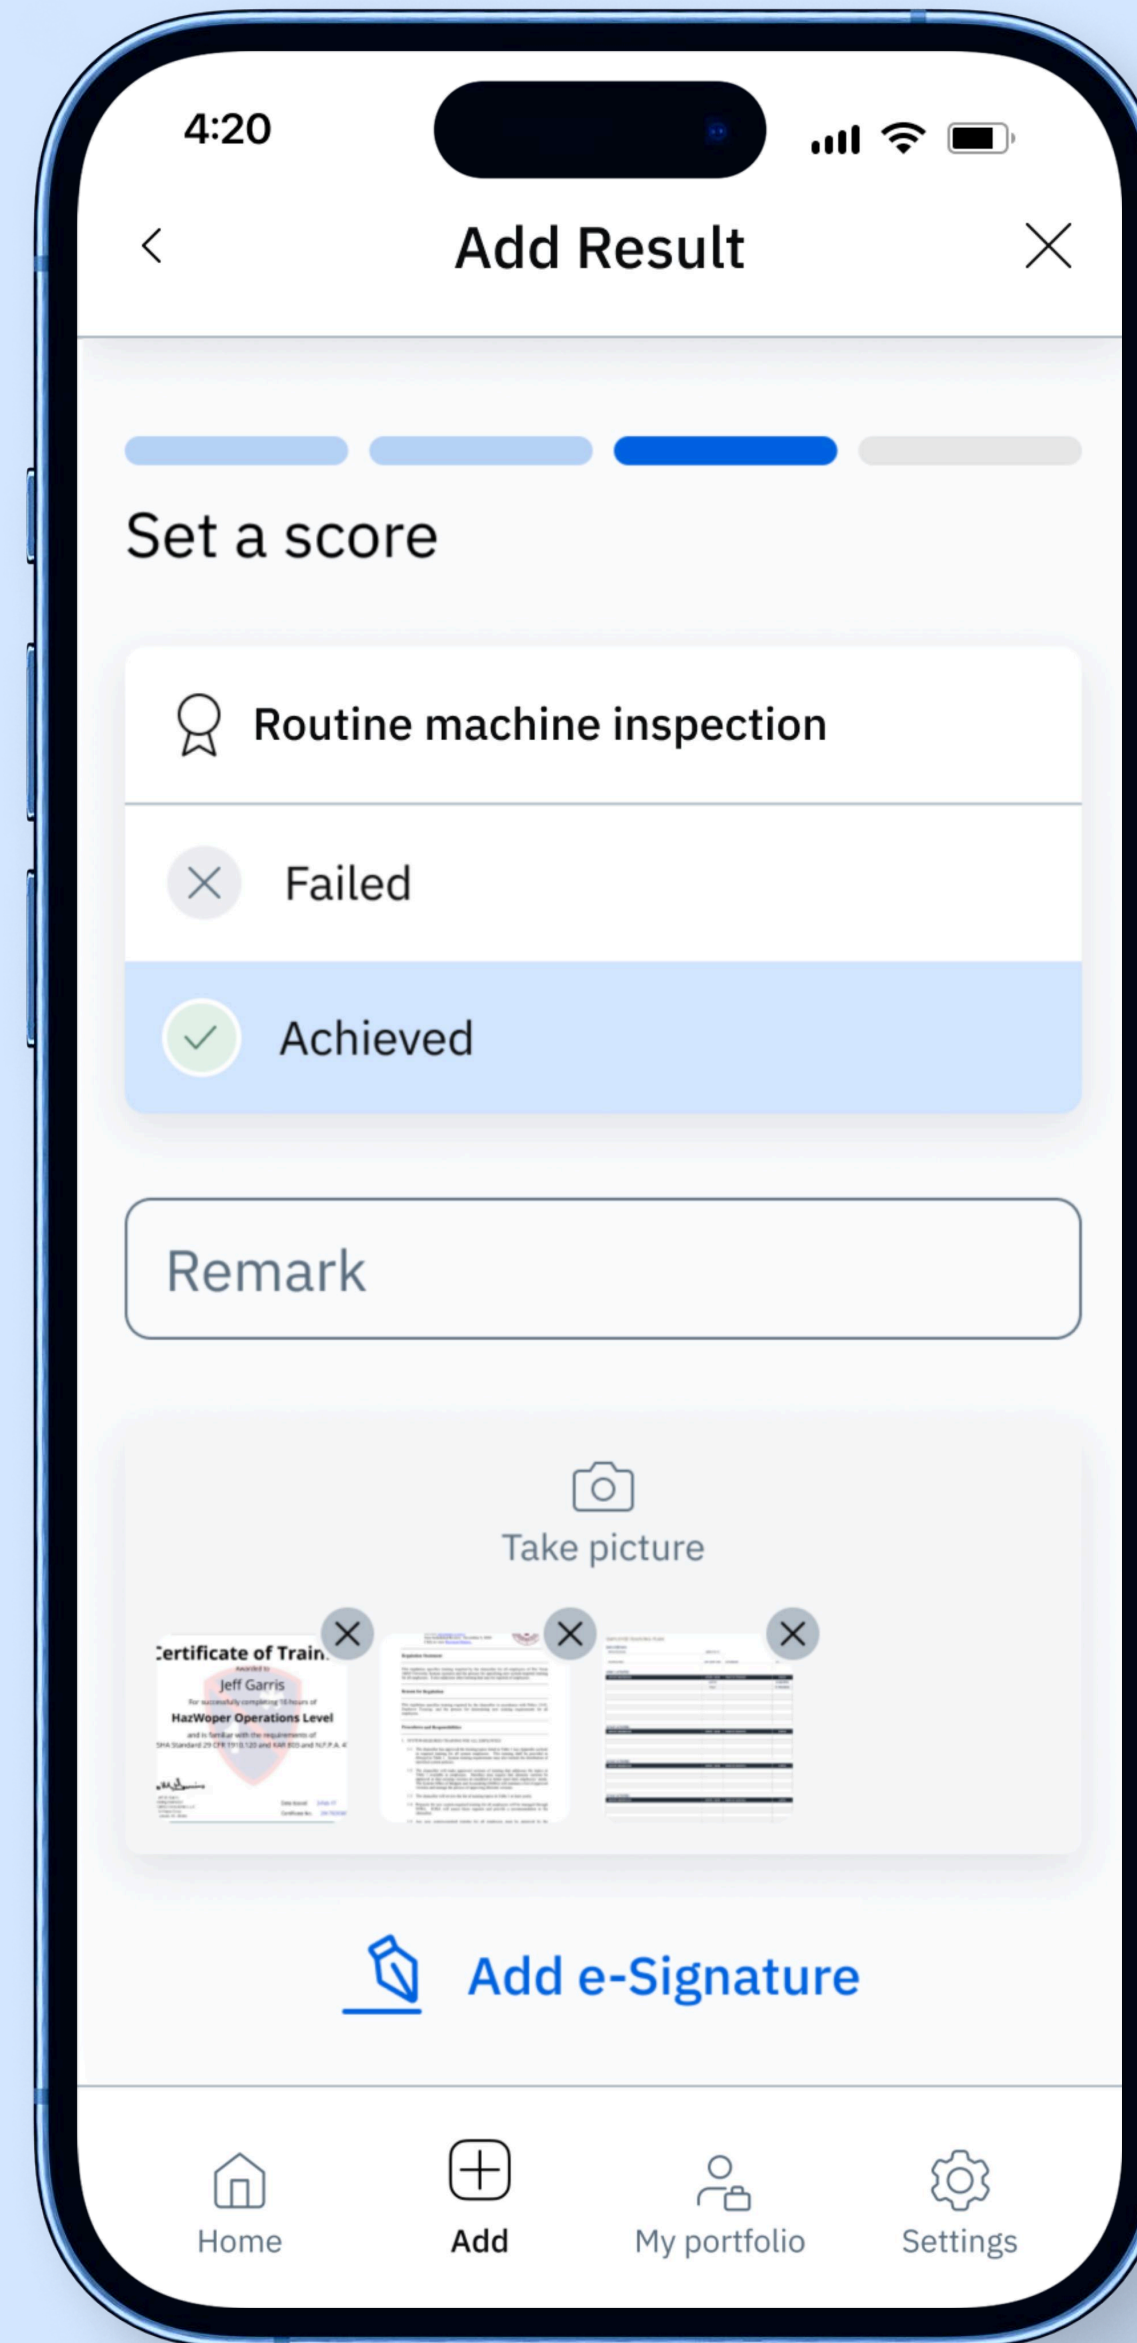

# Home page widgets

Quick access to skills overview and upcoming plannings.

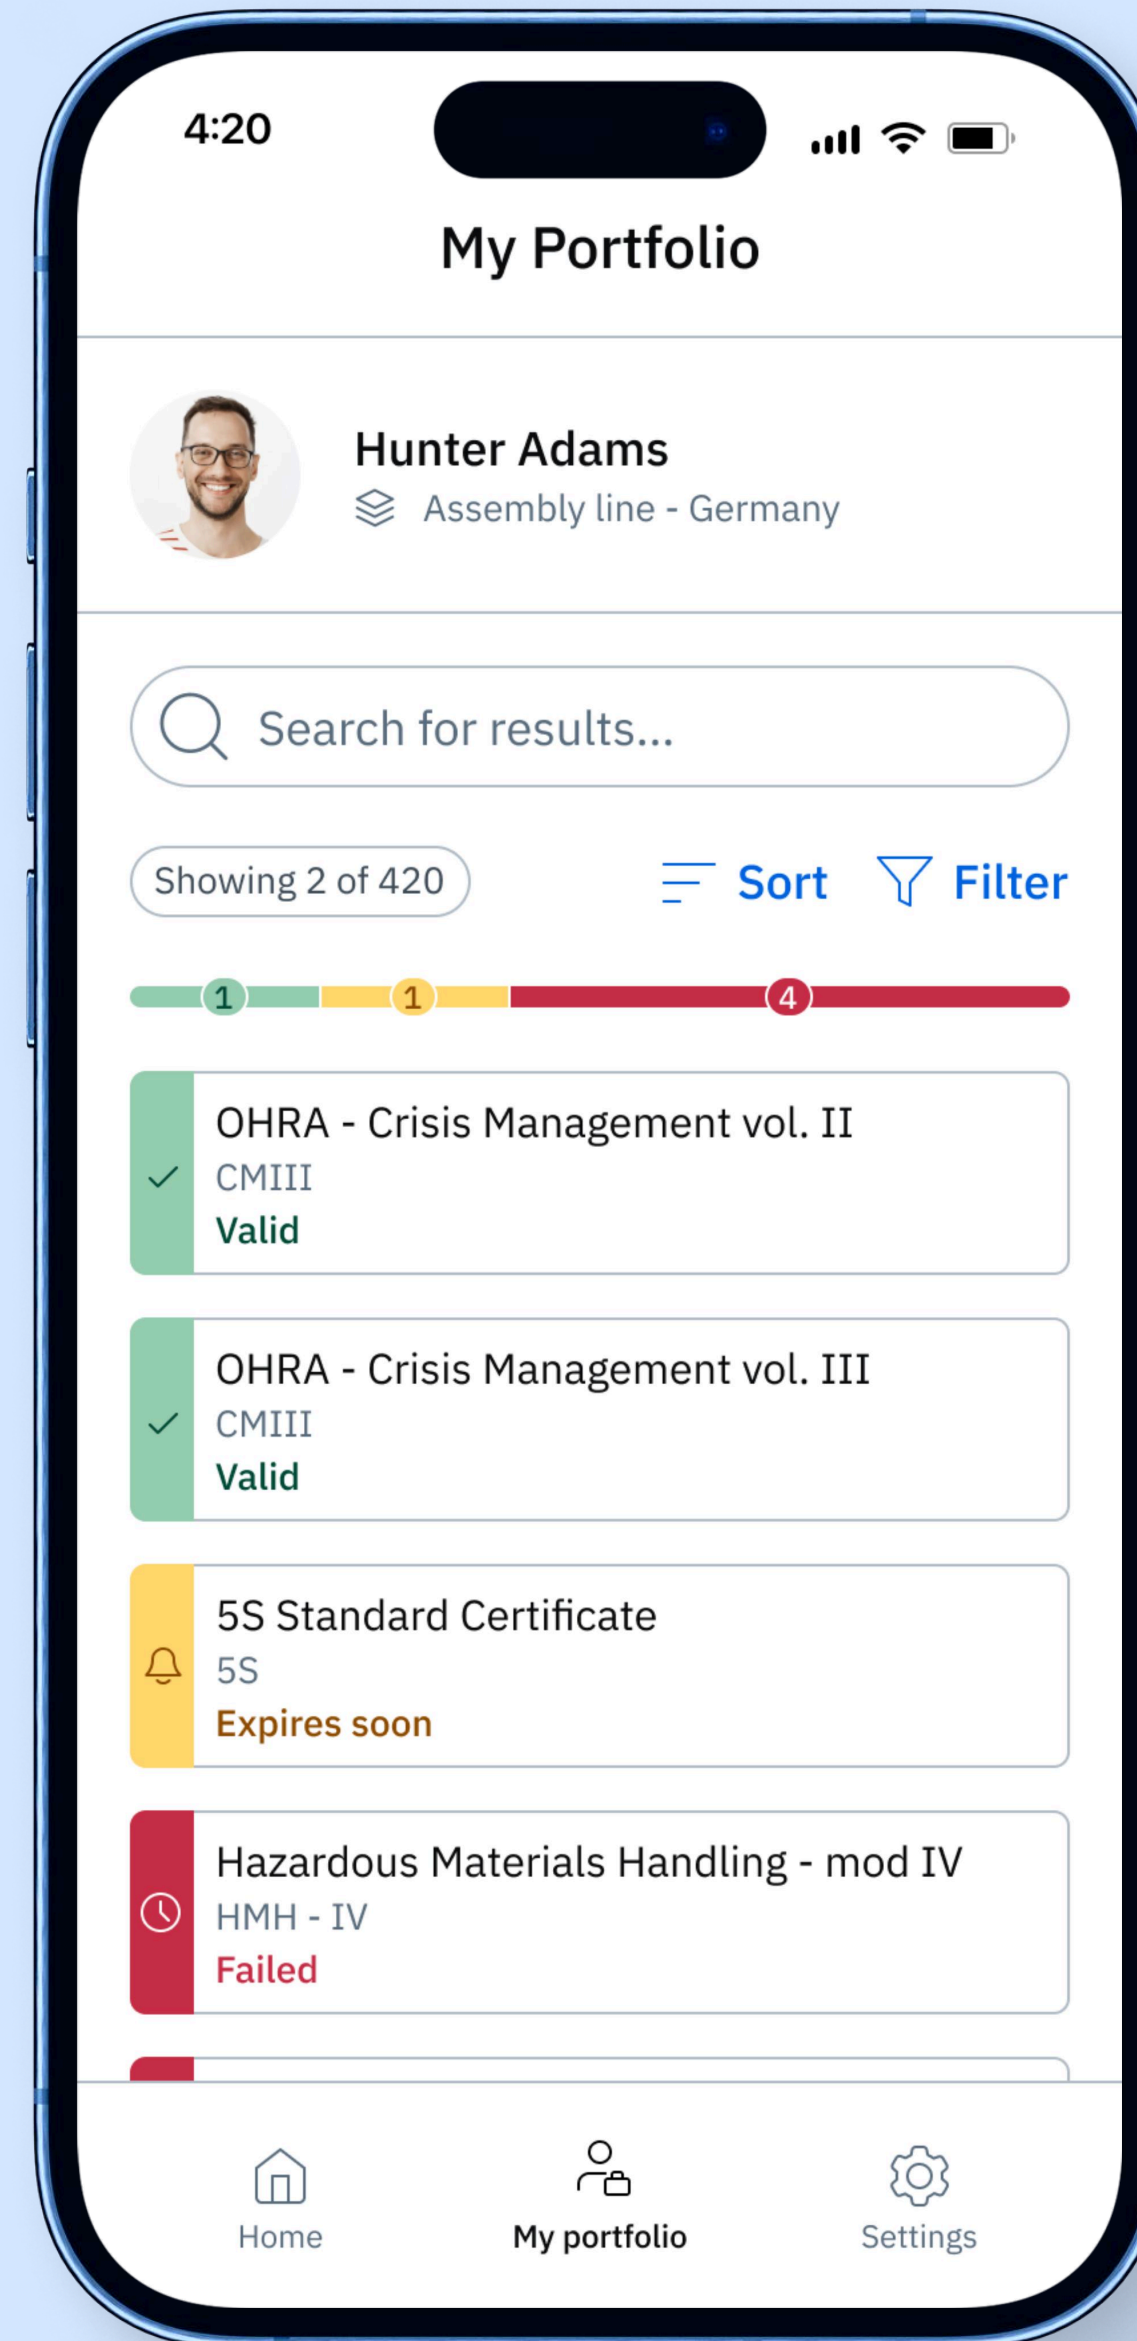

# Adding results

- Quickly and easily add skills using our streamlined results addition process
- Support for electronic signatures and image attachments simplifies the documentation of new skills

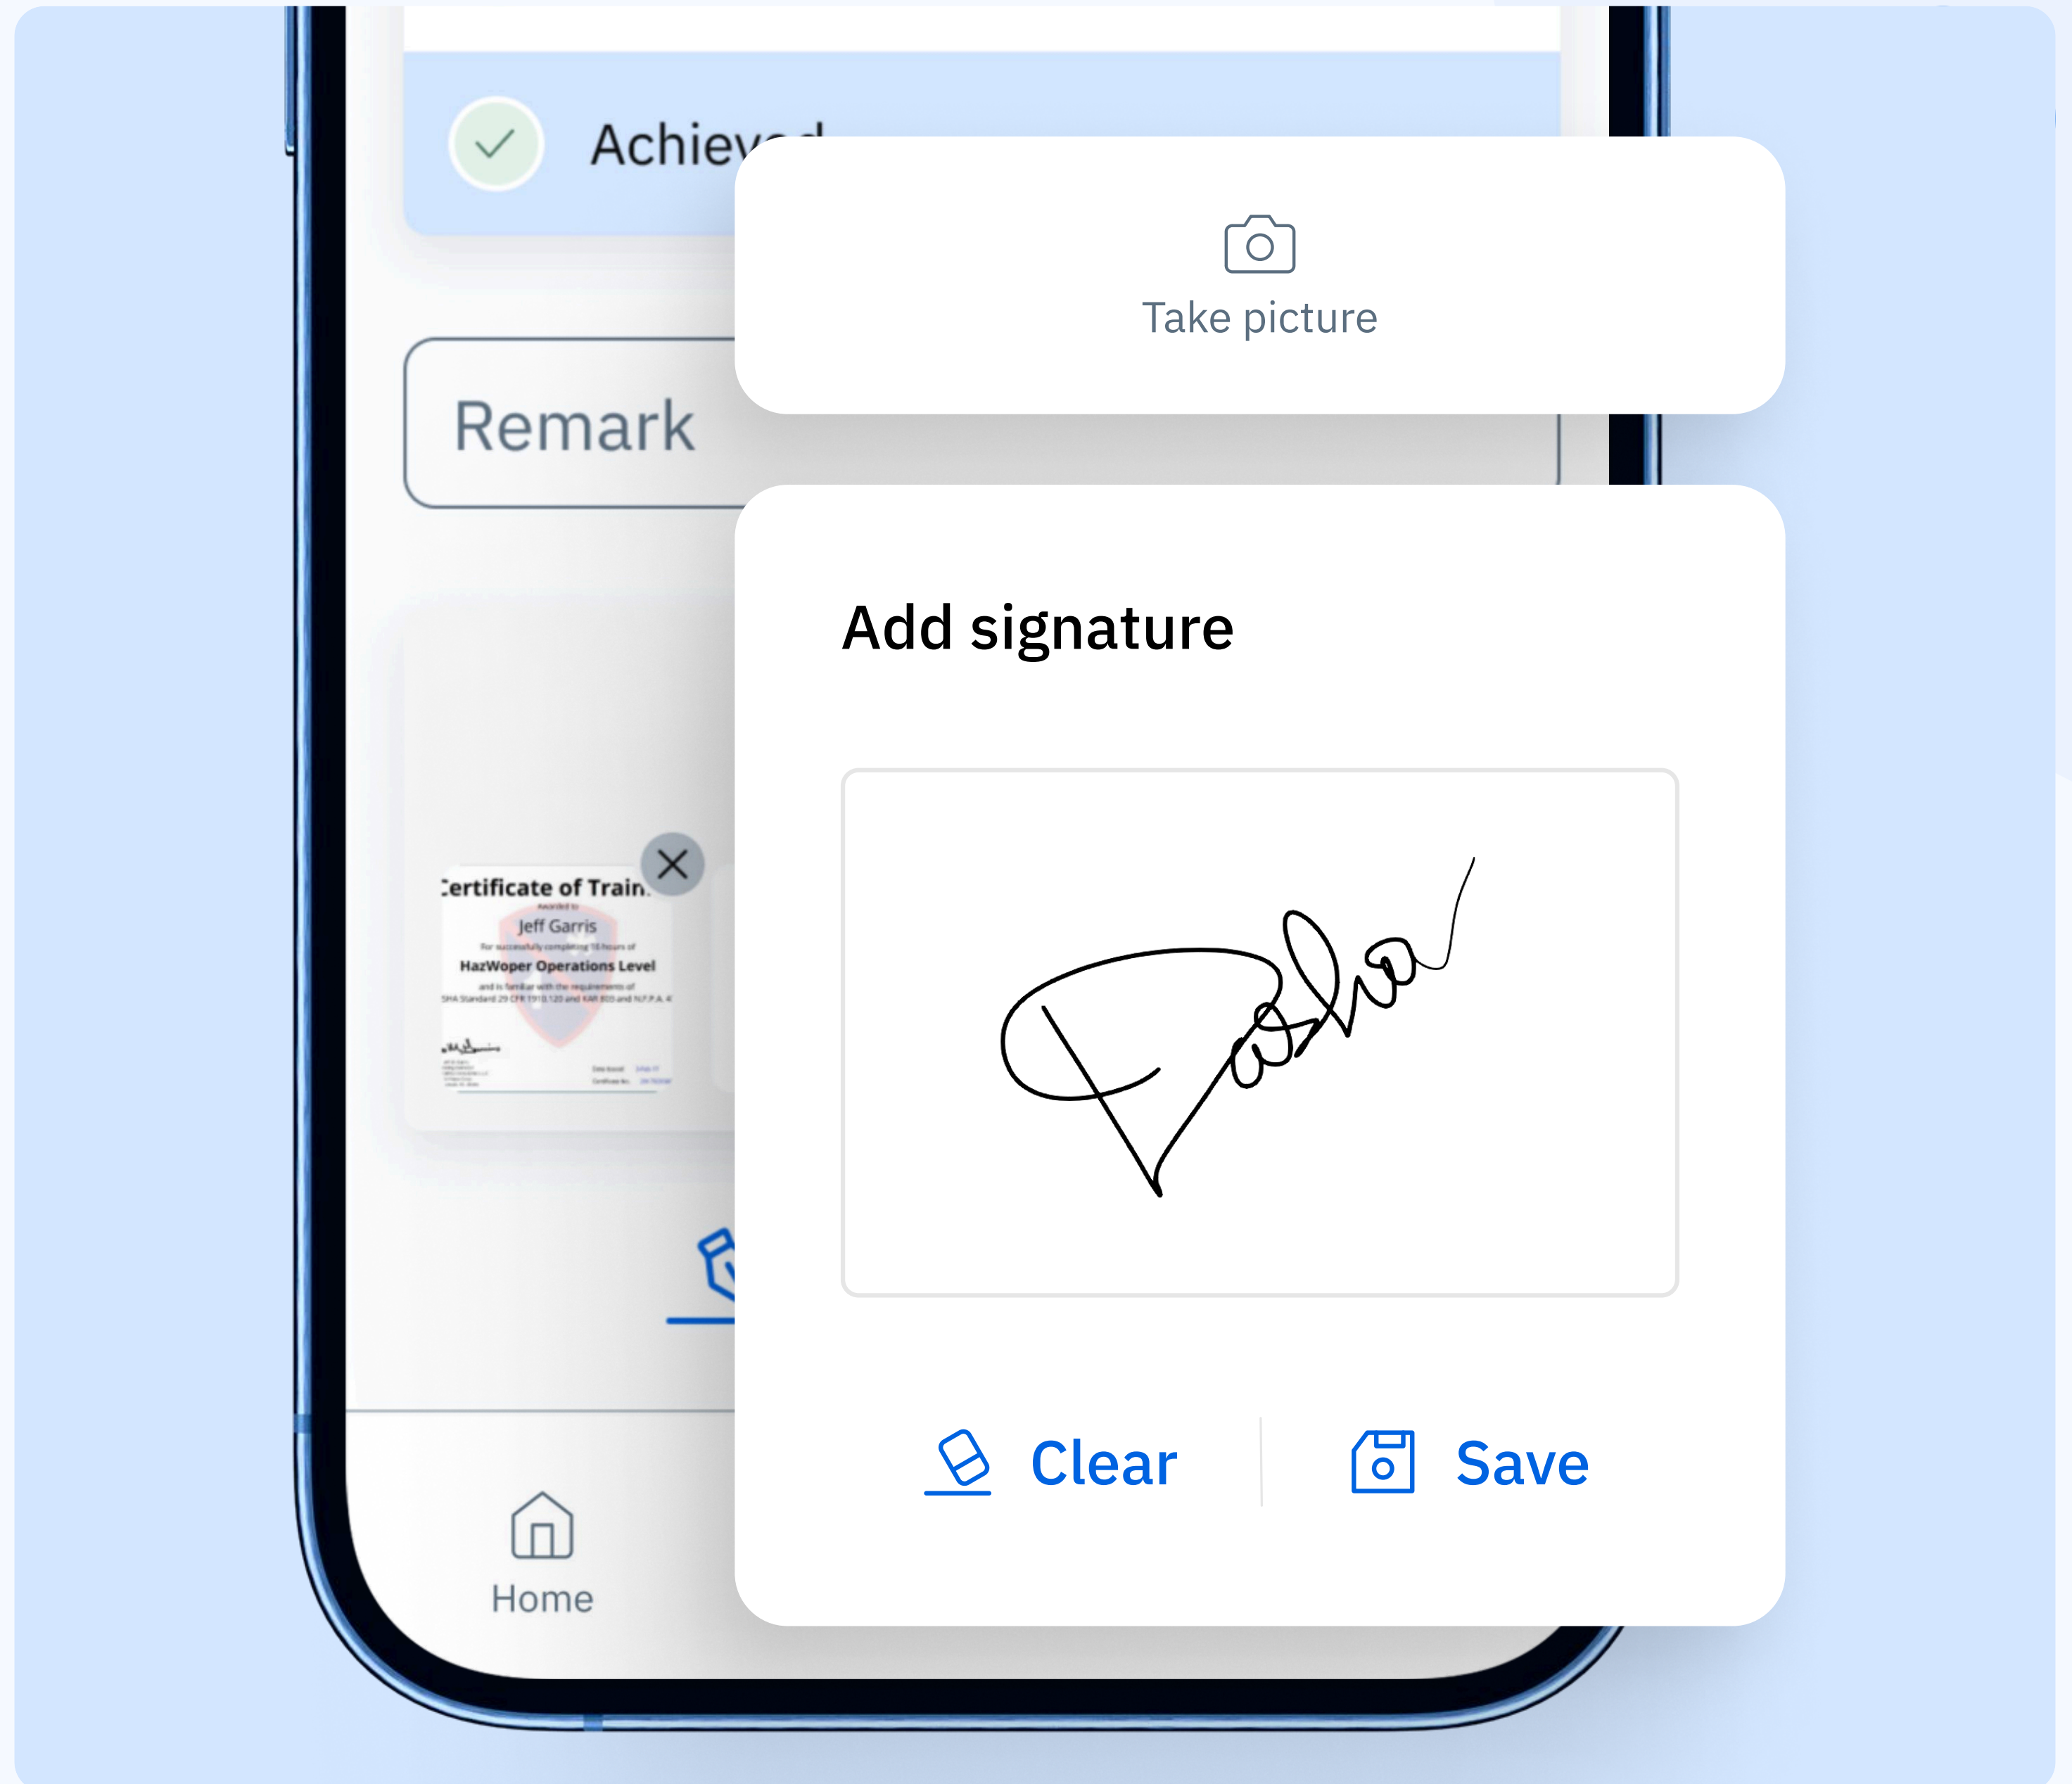

# Viewing portfolio

Sort, filter, and manage skill records easily.

# Uploading documents and e-signatures

Go **paperless** and streamline document handling.

# Typical use cases

Practical ways to save time & empower your team

# Save time and streamline processes

- Delegate skills tracking and result submissions to managers and frontline staff
- Reduce admin tasks through automated document collection

# Empower employees with mobile access

- Equip employees with their own skills portfolio via the AG5 mobile app
- No need for desktop access—easy viewing and updates from their device

The image displays the AG5 mobile application interface. At the top, the AG5 logo is visible, along with navigation tabs for Matrices, Employees, Skills, and Organization. The main content area shows 'Machine line A' with 6 Employees and 8 Skills. A smartphone is overlaid on the screen, showing the 'Add Result' form. The form includes a progress bar, a 'Set a score' section with 'Routine machine inspection' selected, and options for 'Failed' and 'Achieved'. Below this is a 'Remark' field and a 'Take picture' section with a camera icon and a gallery of images. At the bottom of the phone screen is an 'Add e-Signature' button. To the right of the phone, a larger view of the 'Add result' form is shown, detailing the user 'Hunter Adams', the date 'Oct 15, 2024', the skill 'Routine machine inspection', and the score 'Achieved'. It also includes an 'Expiration date' of '26 Aug 2025' with an 'Override' option and a 'Remark' field. At the bottom, there is an 'Attachment' section with a dashed box and a prompt to 'Click or drag a file here to upload (Max. 15 MB)'.

# Empower your frontline workforce with the AG5 Skills app

AG5

Simplified skills management

Enhanced accessibility for frontline workers

Driving higher engagement and real-time management

## Key benefits recap

- Improved adoption by operational teams.
- More engagement from frontline workers.
